

October 30, 2019

Dear St. Agnes Parents,

A 2017 change to Maryland law requires the testing of lead levels in drinking water in all school buildings every three years in the State of Maryland.

We are and have been committed to testing our water sources to insure the lead levels in our school's drinking water is acceptable. Correspondingly, we have tested the lead levels in our drinking water and passed. Therefore, I am pleased to inform you that all tested water sources in our school were within the acceptable standards as required by the State of Maryland.

Should you have any questions or concerns, please don't hesitate to contact me.

With God's Blessings,

A handwritten signature in black ink that reads 'Rob Costante'.
